ABN 90 000 100 096

Dear valued customer,

3M Fall Protection issued a "Stop Use & Product Recall" on JUNE 30th, 2021 to address specific certification requirements to the supplied Tie-Off Adaptors. Since issuing the original recall on JUNE 30th, 2021, we have detected that the AM500/150AU is supplied in kits. This amendment to the original recall notice expands the affected range of products to include all AA400 Protecta Roof Workers Kit.

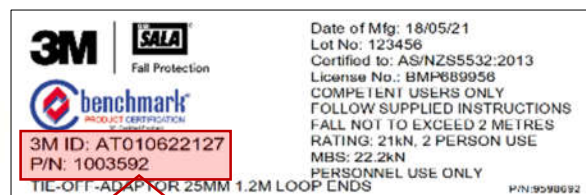

3M Fall Protection has identified that a limited number of 3M DBI-SALA® Web Tie-Off Adaptors and 3M PROTECTA® Tie-off Adaptors, which are certified as single-point anchor devices against AS/NZS 5532:2013 and are attached directly to the anchorage structure to provide a tie-off point for personal fall protection systems, may not consistently meet a specific certification requirement.

During internal testing, we found that a percentage of certain AS/NZS certified Tie-Off Adaptors did not meet the AS/NZS 5532:2013 two-person rating static requirement to hold a 21kN load for 3 minutes. In the event of a fall from height, the affected Web Tie-Off Adaptors may not consistently sustain the two-person force rating as specified on the product label and instruction manual. This product does meet the one-person rating static requirement to hold a 15kN load for 3 minutes.

3M has not received any reports of incidents relating to this matter, there have been no reports of injuries or accidents associated with this issue. 3M is taking this precautionary measure as a responsible manufacturer committed to the highest standards of product quality and safety.

To remedy this situation, 3M is launching a Stop Use & Product Recall to replace the items identified in the table below:

Part Number:	3M ID:	Part Description:
1003592	AT010622127	3M DBI-SALA® Web Tie-Off Adaptor 1003592, Loop Ends
AM500/50AU	70007958120	3M PROTECTA® Tie-off Adaptor AM500 0.5m with interlocking rings
AM500/100AU	70007958112	3M PROTECTA® Tie-off Adaptor AM500 1.0m with interlocking rings
AM500/150AU	70007938429	3M PROTECTA® Tie-off Adaptor AM500 1.5m with interlocking rings
AM500/300AU	70007935250	3M PROTECTA® Tie-off Adaptor AM500 3.0m with interlocking rings

locating the part number

Amendment to include following kit part numbers as AM500/150AU is supplied in following kits:

Tie-off adaptor	3M id	Part Number of kits	Part Description of supplied in kits
AM500/150AU	70007928479	AA400AU	PRO ROOF WORKERS KIT 15M ROPE SYSTEM
70007938429	70007949749	AA400LAU	PROTECTA ROOF WORKERS KIT 15M ROPE LARGE

Users/Owners: Immediately inspect your Tie-Off Adaptor label(s) (see photograph above) to determine if it is one of the affected part numbers listed in the table. Remove any affected Tie-Off Adaptors from service immediately and contact 3M Fall Protection Customer Service Team at 1800 245 002 or 3msupport.safety.au@mmm.com. We will arrange to have your product returned to 3M Fall Protection. 3M will replace your product with an alternate product option and ship it to you at 3M's expense.

Distributors: In the email communication 3M has provided the details of orders for affected parts. Please forward the Stop Use & Product Recall Notice to any of your customers/users who have purchased affected product from you. Please contact our Customer Service department at 3msupport.safety.au@mmm.com or call 1800 245 002 for further questions.
