To: Valued Customer

Subject: 3M™ 9322A+ Respirator

Product Information: 136 136
ABN 90 000 100 096

This is an update to the previously issued “Safety Alert Notice”, dated 9 October 2019.

3M Personal Safety now announces an immediate Stop Use and Product Recall of the 3M™ 9322A+ respirators. Due to the lack of full adhesive application, the nose foam may separate from the top panel of the 3M™ 9322A+ respirators. 3M has determined that affected respirators may not meet its expected performance.

This Stop Use and Recall only affects products with the following batch details shown on the outer shipper, on the individual box and on the individual respirators.

Product Name	Product Code:	ID number	Lot No:
Aura™ 9322A+ FFP2 Respirator	9322A+	XA010017854	See below table

Affected lot numbers:

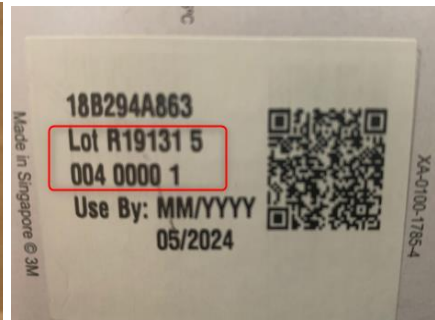

<u>Lot R19132 5 001</u>	<u>Lot R19131 5 001</u>	<u>Lot R19131 5 002</u>
<u>Lot R19131 5 003</u>	<u>Lot R19131 5 004</u>	<u>Lot R19131 5 005</u>
<u>Lot R19131 5 006</u>	<u>Lot R19131 5 007</u>	<u>Lot R19131 5 008</u>
<u>Lot R19130 5 008</u>		

The lot number code of the product can be found;

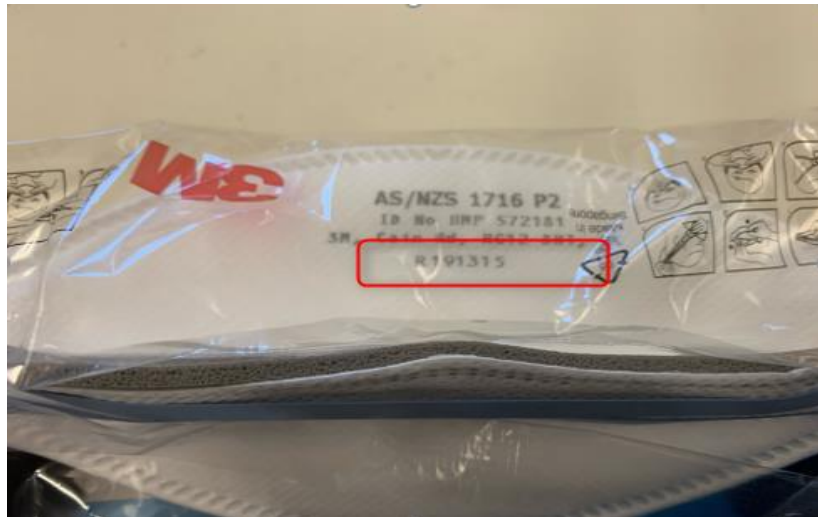

1. On the bottom right-hand side of the 3M shipper case label;
2. On the bottom left hand corner for the individual box; and
3. On the individual respirators

If you have any of the affected products, please complete the attached "Stock Return Form" and email the form to 3M at aucsquality@mmm.com together with an image of the batch number for replacement stock of new 3M™ 9322A+ respirators.

3M sincerely regrets any inconvenience caused. Corrective actions are underway to prevent any re-occurrence of this issue.

Yours sincerely,

Balbir Blassey

A handwritten signature in black ink, appearing to read "Balbir Blassey". The signature is stylized with a large initial 'B' and a long, sweeping underline.
