## **UPDATE TO EMAIL OF 22<sup>nd</sup> NOVEMBER 2021.**

**WARNING! All recipients of this Mandatory Stop Use Notice must read, understand and follow all instructions carefully.**

November 26, 2021

Dear Honeywell Respiratory Protection Customer,

Our records indicate that you have purchased and may have inventory of certain Honeywell dual gas and particulate respirator combination cartridges used in conjunction with air purifying respirators that may be potentially affected by a safety issue.

**Honeywell has issued a Mandatory Stop Use Notice for these cartridges because of a quality issue that might cause bodily harm to end-users.**

Within the framework of regular internal quality standards and testing procedures, Honeywell has determined that some of these cartridges do not meet Honeywell's high quality standards and also do not meet applicable regulatory standards.

Specifically, the quality issue means some end users may not be afforded the expected and required level of protection from the cartridges and thus could be exposed to potentially harmful particulates. Honeywell is not aware of any safety incidents related to these previously produced cartridges.

Immediate action is required. These cartridges must not be used and any cartridges in inventory must be returned to Honeywell or, (if an end user), to the place of purchase/authorised Honeywell distributor..

The cartridges impacted by this notice were produced between Nov. 1, 2019, and August 31, 2021. The attached document includes detailed information on how to identify product impacted by this notice.

Honeywell has paused production and delivery of cartridges affected by this notice and currently is implementing changes in its manufacturing processes to correct the quality issue.

### **Instructions for Distributors:**

Honeywell will issue a credit for any products that can no longer be used and must be returned to Honeywell. To determine if your specific product is impacted, please visit <https://sps.honeywell.com/gb/en/notifications/safety/stopusecombinationcartridge> to find additional detail.

**REQUIRED ACTIONS:**

- Immediately forward this notice to any of your customers/users who have purchased the impacted products (in Exhibit 1, below) produced between Nov. 1, 2019 and Aug. 31, 2021 with an urgent request that they read and comply with the notice.
- Ensure that your customers forward this safety information to their customers.
- If you still have inventory of the cartridges concerned, immediately stop selling them.
- Please contact your Honeywell Sales Representative to arrange the return/collection of the impacted products.
- To obtain credit for the impacted product,  
visit: <https://sps.honeywell.com/gb/en/notifications/safety/stopusecombinationcartridge>

**Instructions for End Users:**

Honeywell will replace any cartridges impacted by this notice. To determine if your specific product is impacted, please visit <https://sps.honeywell.com/gb/en/notifications/safety/stopusecombinationcartridge> to find additional detail.

Please return your impacted product to the place of purchase/authorised Honeywell distributor for a replacement.(where available) or a refund.

Honeywell regrets any inconvenience caused by this quality issue and this safety and stop use notice. However, Honeywell is committed to worker safety and we felt it was necessary and prudent to take these actions.

Regards,

Honeywell Personal Protective Equipment
