

Product Safety Recall

DeWalt 305mm Mitre Saws

Models DWS780-XE and DHS780 Type Number 21

Production Date Codes between 2019-33 and 2022-06
Sold between September 2019 and July 2022

Defect:

The plastic rear guard could break or come off and hit the saw blade.

Hazards:

If the plastic rear guard hits the saw blade, fragments of the guard may hit the user or bystanders, causing serious injury.

What to do:

Consumers should immediately stop using the product. Check the model, type number and date code to determine whether the product is impacted. If so, contact DeWalt Customer Service Team to receive a free repair kit.

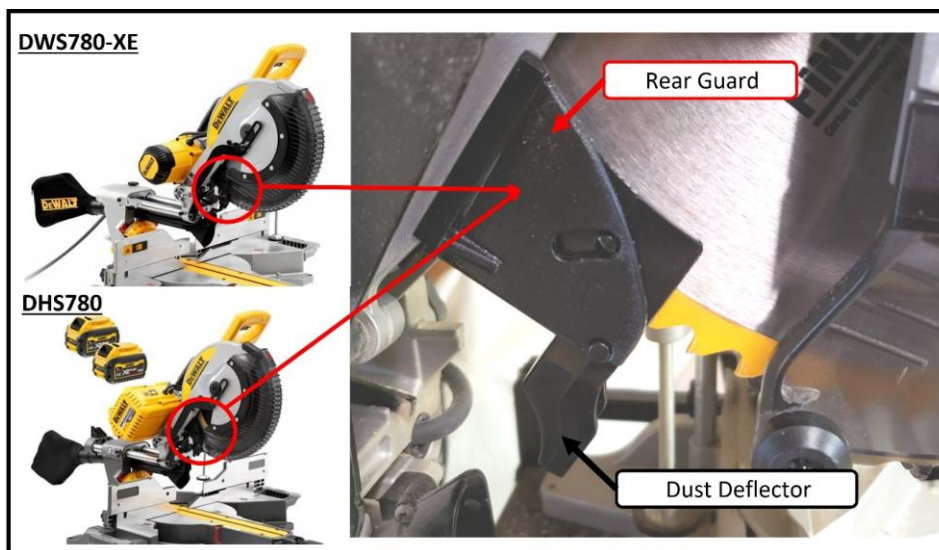

Contact details:

For further information, consumers should contact DeWalt Customer Service on 1800 338 002 or email auorders@sbdinc.com

Product Safety Recall

Rear guard component location and identification:

What is the repair kit?

The repair kit includes a new rear guard and dust deflector assembly, two new fixing screws and instructions.

The original saw blade wrench supplied with the saw, which is used to change saw blades, has a T30 Torx head and can be used to remove the old screws and replace the new screws.
