

Product Safety Recall

Klein Tools Non Contact Voltage Tester NCVT-1

Sold by hardware stores including Bunnings and Total Tools between 1 September 2020 and 4 April 2021

Defect

The green light on the tip of the tool remains on when the on/off button is depressed, indicating the tool is “ready to detect voltage,” when it is not.

Hazard

If a user believes the tool is ready to detect voltage when it is not, they may not get an accurate voltage reading, increasing the risk of electric shock.

What to do

Consumers should immediately stop using the voltage tester and contact Klein Tools Australia to arrange for a replacement or refund.

Contact details

Consumers can contact Klein Tools Australia on 1800 553 468 or email return@kleintools.com.au
